

World Martial Arts Committee

Head Quarter WMAC World, Mr. Harald FOLLADORI (President),
Achgasse 25c, 6900 Bregenz, Austria

headquarter@wmac-world.com | www.wmac-world.com

Dear sport friends and members of the WMAC,

In recent weeks, according to the World Martial Art Games are a great many things happened that I would like to clarify here.

Two gentlemen, there character – Director NMAC Germany and Director Great Britain, attempted a takeover of the WMAC in Norwich. Unfortunately this did not happen and it was followed by a flood of mail statements and allegations against my person.

This group also had no qualms to persuade to relieve back uninvolved nations (which consisted of only one person Nations) the entire board. Since these people were neither members nor directors of the association WMAC, ran this venture in the sand.

The WMAC is a registered association with headquarters in Bregenz / Austria and the word and image data of the WMAC logos are also protected.

Due to the problems with official was convened board meeting of the WMAC and terminated to 03.10.15. Rather than face a democratic act was everything suddenly changed.

Over the past weekend 12-13.9.15, and after my Intervention due TRADEMARK injury, this people took suddenly the plan B at hand and lifted out the old WMAC WMAGC newly launched. So quite as good, only maintains this good men's now that the WMAC no longer exists.

Thus, the conflict goes in a completely different direction, since it tries to represent it so that the WMAC has passed into the WMAGC – a purely populist and untrue assertion that nobody will take seriously.

The fact is that the WMAC after the Board meeting on 03/10/15 a new course provides and the Association which is what he should be years ago – open sports exercise without compulsory membership and genuine cooperation with the big associations in the martial arts field.

In all evil, there's always something good and so this flood of mail also has other institutions listen attentively who, assured us in very many telephone conversations and mails their full support.

What should destroy us – made us finally more and we are looking to go us together in a very certain future.

Self-aggrandizement, undemocratic behavior and power are emerging NOT the way of Budos – but a common home on an equal footing and the sport we all love the way.

Open your eyes and do not be blinded by the new logo and great intentions. The people remain the same, and also what they have left so far.

Each of the sport and its people are important in an honest way and it taxed fairly and with respect to measure, are welcome, regardless of any other factors.

Best regards,
Harald Folladori
President WMAC
